Representatives should be appointed to this board based upon their knowledge in dealing with both historical structures and archaeological sites. A County Historic Preservation Officer should be designated to serve as staff to this board.
- D. The ordinance should establish procedures for the review of all development and redevelopment proposals, including those for infrastructure, for the impact upon designated historic resources. Alterations to these resources should also be reviewed prior to approval. The Standards for Rehabilitation of the Secretary of the U.S. Department of the Interior should be used in the review of alterations to historic buildings.

Policy 2.2

Upon adoption of the historic preservation ordinance, Brevard County shall pursue certification of the ordinance from the U.S. Department of the Interior.

- E. Distinctive stylistic features or examples of skilled craftsmanship which characterize a building, structure, or site shall be treated with sensitivity.
- F. Deteriorated architectural features shall be repaired rather than replaced, whenever possible. In the event replacement is necessary, the new material should match the material being replaced in composition, design, color, texture, and other visual qualities. Repair or replacement of missing architectural features should be based on accurate duplications of features, substantiated by historic, physical or pictorial evidence rather than on conjectural designs or the availability of different architectural elements from other buildings or structures.
- G. The surface cleaning of structures shall be undertaken with the gentlest means possible. Sandblasting and other cleaning methods that will damage the historic building materials shall not be undertaken.
- H. Every reasonable effort shall be made to protect and preserve archaeological resources affected by or adjacent to any project.
