Objective 1

Brevard County should act within its authority to substantially increase the supply of affordable housing through housing implementation or other programs, especially to meet the needs of very low income households and households with special housing needs including rural and farmworker households, to provide housing for the existing and anticipated residents in the County. Policy 1.1

Brevard County has established the following as the definition of affordable housing: A dwelling unit is considered to be affordable both when a household spends no more than thirty percent (30%) of its total gross income on housing costs, and the dwelling unit complies with the requirements of the Standard Housing Code, 1991 as published by the Southern Building Code Congress International and amended from time to time. Housing costs include: contract rent and utilities for rental units; and payment of principal, interest, taxes and insurance for owner occupied units. The County should increase the supply of affordable housing within the County by utilizing the following strategies:
